INTELLECTUAL PROPERTY RIGHT (IPR) POLICY

2022-2023

Protection and management of Intellectual Property Right (IPR) have become a major challenge for countries across the globe as patents are considered as indicators of technological development and trends in R & D. Realizing the potential of knowledge as the main creator of wealth in the emerging world economy, most of the nations in the world work on projects that would help improve the economy and protect their Intellectual Property Right.

The Intellectual Property Rights (IPR) Cell of B.B. College, Baiganbadia, is established with a view to promote innovation and research culture on the campus, faculty and students-led start-ups and ventures and help them to protect and respect intellectual property. The aim of the cell is to nurture the spirit of innovation and translate the innovation into value added products, processes and services for society and study the market feasibility and explore the commercial viability of the same. The cell is also committed to help the common people in the society by supporting them to shape their innovative ideas and guide them to obtain the IP right. The IPR policy of the College aims to contribute in transforming industry and society by delivering research driven education, promoting innovation, collaboration and fostering human values.

MAJOR OBJECTIVES
